

# VUDU

**PART ONE AND TWO**

**Concept, Objects,  
Photography,**

**#2**

**by HANS FLEISCHNER**

## VUDU Book #2

Continues where Book #1 closed with an afterword, explaining a bit the way the photographs were going to be shown.

If now you see differences, when viewing the new photographs, then it simply is just part of the flow.

Like the ocean coming and going.

Drawing different patterns, but with the same water. The images here and future ones to come, draw traces of our lives on a canvas, laid out before us.

A canvas that existed before us, showing steps made before us, before we leave steps, for those, who come after us.

That's it.  
For now.  
More to  
come,  
next  
year.

Same format.  
Different photography.  
VUDU by many names.

Plenty of objects up my  
sleeve, plenty of ideas.

To make for more unique  
images, leading to books  
and more. Stay tuned.
